HBL POWER SYSTEMS LTD

Rs 11,974 mn (2012-13)

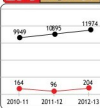

HBL Power Systems began operations in 1977 with the business strategy of identifying technology gaps that could be filled in by the company, through indigenous efforts. It initially developed aircraft batteries that led to the company offering a wide range of specialised batteries and chargers. It then moved to other markets using its batteries, including industrial electronics, defence electronics and railway electronic signalling. It has now moved into precision manufacturing, small AC and DC motors, and 'green' technology products. In August 2013, HBL Power announced that the company has disposed of its entire stake in Agile Electric Sub Assembly Pvt Ltd.

MIRC ELECTRONICS LTD

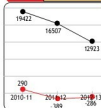

Rs 12,923 mn (2012-13)

Mirc Electronics, which owns Orinda, was established in 1981 with a goal to manufacture televisions sets. Later, it transformed itself into a complete consumer durables company with its product portfolio embracing a wide range including flat-panel TVs (LED and LCD TVs), home theatre systems, mobile phones, projector systems and LED lights, etc. In July this year, the company appointed former LG India director V.V. Verma as its new CEO. His appointment is in line with the firm's strategy to rebuild the Orinda brand to make it youthful and premium. The firm plans to completely revamp its portfolio, bringing out products based on global design trends and technology. This completely new product portfolio will be launched in phases over the next few months.
