An ERP Solution to prepare your Institute for the future -

Splash is a fully browser based and web enabled comprehensive automation framework designed specifically to automate diverse operation of educational institutes.

Splash has a powerful online community to bring parents, teachers and students on a common interactive platform. It creates a cutting edge, technology enabled environment and facilitates quick and creative analysis of data. This facilitates astute and timely decision-making (in all areas-financial, inventory management, course management, student strength-weakness analysis, Hostel management etc).

Features

Secura ERP

for Manufacturing & Trading Industries

Secura ERP integrates internal and external management information across an entire organization, embracing finance/accounting, manufacturing, sales and service, etc. ERP systems automate this activity with an integrated software application. Its purpose is to facilitate the flow of information between all business functions inside the boundaries of the organization and manage the connections to outside stakeholders.
