

52 NEW High Power DC Supplies from Agilent

Agilent N6900 and N7900

Advanced Power System

Family with

VersaPower

Overcome your toughest power test challenges

- 1 kW and 2 kW models (expandable to 10 kW)
- Up to 160 V, up to 200 A
- Increase system throughput (with programming speeds up to 350 μ s)
- Test power storage devices with full two-quadrant operation
- Characterize dynamic current profile (18-bit digitizer)
- Protect high-value DUT with smart triggering

Learn how the fastest, most accurate, integrated power system can help you overcome a wide variety of test challenges.

Agilent N8900 Series Autoranging System DC Power Supplies

High-power, autoranging output does the job of multiple supplies

- 5 kW, 10 kW and 15 kW models (expandable to >100 kW)
- Up to 1500 V, up to 510 A
- Autoranging output – like many power supplies in one!

Learn how these high-power autoranging DC supplies can simplify test system development.
