

Portable Audio Powerhouse

JBL charge has 12 hours of playback time and seamless Bluetooth connectivity

Harman India recently launched JBL Charge, a portable audio powerhouse, which is perfect for house parties, family trips, picnics and everyday use. It has over 12 hours of playback time from a single charge, a built-in USB port to charge mobile devices on the go and seamless Bluetooth connectivity.

The new Bluetooth-powered portable speaker packs a mean double punch as its two drivers and built-in bass port bring big performance, while its 12-hour battery can charge smartphones and tablets while on the go. The JBL Charge speaker wirelessly streams audio from any Bluetooth-equipped smartphone or tablet, and lets you enjoy unsurpassed portable-audio performance from your mobile devices and tablets.

With two 41mm drivers, a built-in bass port, 2x5 watts of amplification and digital signal processing, it delivers full-range JBL sound with exceptional bass.

JBL Charge is offered in three vibrant colours—grey, blue and green, and will be available in India from October.

Price: ₹ 9990

Budget Apple iPhone

The latest iPhone comes with a 10.2cm (4-inch) Retina display and runs on iOS 7

The day has finally arrived when Apple has stepped beyond its 'snobbish' image of being an elite brand, as the Cupertino-giant has launched budget-friendly device iPhone 5C. As rumoured, Apple iPhone 5C is launched in a range of colours including blue, green, pink, yellow and white.

Since it is the first budget device from Apple, let us talk about its price first. The iPhone 5C will be priced at \$99 for the 16GB model and \$199 for the 32GB model on a two-year contract in the US. However, the unlocked version of the device would be available for \$549. The company has made all efforts to justify the price with some really cool features of the device. The latest iPhone comes with a 10.2cm (4-inch) Retina display. The smartphone comes packed with an A6 chip and an 8MP iSight camera.

The iPhone 5C has been rendered a single, hard-coated polycarbonate body

with a steel, reinforced frame thrown in. The steel band also functions as the smartphone's multiband antenna. The metal frame of the device is supplemented with microfibre-lined cases. The company is offering the consumers a choice of six frames to choose from.

Other specs of the device include new FaceTime HD camera and support for up to 13 LTE wireless bands. It runs on iOS 7, Apple's latest operating system. As far as the connectivity is concerned, the newest iPhone offers support for dual-band Wi-Fi 802.11 a/b/g/n and Bluetooth 4.0. According to Apple, iPhone 5C will offer 10 hours of talk time on 3G networks, up to 10 hours of video playback and up to 40 hours of audio playback. The company has also included some of the most popular iWork apps like Pages, Numbers and Keynote for free with the device.

Price: \$99 to \$199 (on contract)

Biometric Pen Drive

Moser Baer Biometric pen drive weighs 13 gm and carries separate public and private space on the disk

In order to ensure data confidentiality and protection from data theft, Moser Baer has come up with a unique biometric pen drive dubbed Moser Baer Biometric. The easily installable biometric pen drive is designed to provide stronger data security, password protection, strong user authentication, file encryption and carries separate public and private space on the disk.

The white-coloured drive has the capacity of 16 GB and is compatible with Windows ME/2000/XP/Vista/MAC OS 9.0 or Linux Kernel 2.4.2. The

pen drive weighs 13 gm and comes with two-year warranty.

Commenting on the launch, Deepak Shetty, senior vice president, domestic sales and marketing, Moser Baer, said, "This is one of our latest offering to our customers to further strengthen the security of the pen drives. The product will help fight cyber threats."
