

Installation types

The Setup program allows you to select one of the following types of installations:

1. Compact: It uses minimal hard disk space but includes all the components required to run and develop an ATEasy application.
2. Custom: It allows you to control which optional components are installed.
3. Full: It installs all the ATEasy components.
4. License Server: It installs the ATEasy licence server used to provide ATEasy licences to other computers running on the same network.
5. Run-Time: It installs the components required to run ATEasy, excluding the IDE that is used to develop ATEasy applications.
6. Typical(default): It installs the most commonly used ATEasy components used to develop and run an ATEasy application.

set up a new folder, or click 'Next' to accept the default entry of 'C:\Program Files\ATEasy.' Select the type of Setup and click 'Next.' Select the program folder where the icons and shortcuts for ATEasy are to be stored. Click 'Next' when finished. The program will now start installing.

During the installation of ATEasy, Setup may upgrade some of the Windows shared components and files. If prompted, restart Windows. Setup may ask you to reboot after installation completes. Reboot in order to ensure complete installation.

You can now start ATEasy by double-clicking the ATEasy icon on the desktop or by selecting ATEasy from the Start→Programs→ATEasy menu.

Licence, registration and support

To use ATEasy, you must purchase a licence from Geotest. Three types of licences are available:

Single licence, network licence and hardware key (USB or LPT version).

If you do not have a licence, you can activate a 30-day trial version of the ATEasy software. The trial licence

contains full ATEasy functionality for 30 days.

The licence can be set up from 'ATEasy License Setup' dialogue box. This dialogue is displayed when starting ATEasy with no licence installed or from 'About ATEasy' item under 'Help' menu when you want to change the licence. If you have purchased a subscription plan, you must register to activate the plan. Subscription plan entitles you to free upgrades and unlimited customer support. If you don't have a subscription plan, you may register to receive free ATEasy newsletter, product service packs, updated drivers and examples.

You can go through the books available online for more information on how to register the product and set up a licence.

For information on how to go about your first project on ATEasy, and create your own application and your first test program, commands, modules and external libraries, refer to the PDF manual 'Getting Started With ATEasy' available on www.marvintest.com. ●
