

Cabinet approves 100 per cent FDI in telecom

The government of India has approved 100 per cent foreign direct investment (FDI) in telecom sector. It was a key demand of the fund-starved industry. The decision to increase FDI cap in telecom sector from 74 per cent to 100 per cent was taken at a meeting of the Cabinet committee on economic affairs.

From now onwards, out of 100 per cent FDI, 49 per cent will be done through automatic route and beyond that through FIPB route, said Anand Sharma, the minister for Commerce and Industry.

States' support sought to promote investments in ESDM sector

Minister for Communications and IT, Kapil Sibal, recently held a meeting with ministers and officials of state governments to enlist their support in the ongoing efforts of the government for promotion of investment in electronics system design and manufacturing (ESDM) in India.

At the meeting, Sibal emphasised on the importance of the role of the state governments in creating a pro-investment environment and facilitating availability of land, water, roads and training infrastructure to provide skilled manpower to support manufacturing activities. Recently, Sibal had also handed over investment

Tablet market in India takes a leap

The Indian tablet sector has managed a growth of 424 per cent, according to the Manufacturers' Association of Information Technology (MAIT). While presenting its 'IT Industry An-

nual Performance Review 2012-13,' MAIT revealed that the PC market last year saw a significant slowdown in growth with 5 per cent against 16 one year ago, but there was a decent 10 per cent growth of laptop market in the cities.

However, amongst the mediocre and poor performances of other PC devices, the star of the show was the tablet sector which managed a growth of 424 per cent.
