

DO NOT MISS !

Own an Advanced and Highly Efficient Spectrum Analyzer TODAY!

20% off

Order GSP-930 prior to October 31, 2013
will enjoy 20% off discount.

GSP-930 3GHz Spectrum Analyzer

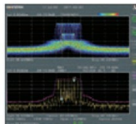

GSP-930, the only 3GHz Spectrum Analyzer in the Same Class, Possesses the Following Functions :

- 0.025 ppm (25ppb) frequency measurement stability.
- Spectrogram analyzes signals' fluctuation along time-axis and spectrum with abnormal signals.
- Topographic Display distinguishes overlapping signals and captures transient signals.
- Sequence function shortens users' programming time via a basic procedure-editing function.
- Patented heat dissipation design can reduce warm-up time and shorten users' measuring time.

GSP-930 can greatly reduce your measuring time so as to accomplish more tasks. Please go to www.gwinstek.com/GSP-930 for more details about GSP-930.

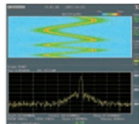

Terms & Conditions :

1. This promotion is available worldwide.
 2. This promotion is available via GW Instek direct sale locations or distributors.
 3. Local distributors determine the final discount percentage, which will not be less than 20%.
 4. This promotion is only for GSP-930 console and tracking generator.
- Accessories are not included.

Topographic Mode

Topographic distinguishes two signals overlapping on the same frequency spectrum

Spectrogram Mode

Spectrogram displays signals' fluctuation along time-axis

5. Customers already owned GSP-930 enjoy discount on tracking generator option. An installation and adjustment fee will be collected but no discount will be offered on installation.
6. GW Instek reserves the right to alter or terminate this promotion.
