

Agilent Technologies

Overcome your toughest power test challenges

with the
**Advanced
Power
System
family**

with **VersaPower**

Building a continuous source and load

Increasing test system throughput

Protecting against power related damage

Generating power transients

Characterizing inrush current

Characterizing dynamic current profiles

Properly powering on/off a DUT

Tracking power events for root-cause analysis

Maintaining output integrity under dynamic load conditions

electronica India 2013

productronica India 2013

4-6 September, 2013 Pragati Maidan, New Delhi
