

Fluke, the most trusted name in the world for
Earth Ground Testers and Insulation Testers

FLUKE®

Features

Earth Ground Testers

- 3 and 4-pole earth ground measurement
- Selective testing, no disconnection of ground conductor (1 clamp)
- Stakeless testing, quick ground loop testing (2 clamps)
- Earth impedance measurement at 55 Hz with auto frequency control

Insulation Testers

- CAT III 1000 V, CAT IV 600 V safety rating
- Selectable test voltages up to 10 kV (in steps of 50/100V)
- Resistance measurements up to $2T\Omega$, with Ramp function for breakdown testing
- Automatic calculation of Dielectric Absorption (DAR) and Polarization Index (PI)
