

Boom, Knock and Pop Headsets

Nokia brings three cool looking headsets that come in three colour variants and are tangle-free

Nokia in partnership with Zound Industries under Coloud brand has launched three new headsets dubbed Boom (WH-530), Knock (WH-520) and Pop (WH-510). While Boom and Knock are on-ear headsets, Pop is an in-ear type. All three headsets are available in yellow, red and blue colour variants. These stereo headsets are loaded with a microphone for calls and a multi-function key to receive or reject calls and control music. The Zound Lasso, which is fixed with the flat cables, makes these headsets tangle-free.

The Nokia Coloud Boom has a closed construction, which is smart enough to block the outside noise. Its large ear pads will fit over one's ear comfortably and the padded frame will sit easily on head. The headset weighs about 132 gm.

The Nokia Coloud Knock is in pattern with the Boom but is lighter in looks and weighs just 78 gm. But don't misjudge it with its minimalistic style as it holds a solid construction.

The Nokia Coloud Pop is the in-ear earphone that carries angled ear-buds which can fit perfectly into any ear. It comes with different sized buds in the pack and weighs just 16 gm. All three headsets equip a 3.5mm audio jack which can work with most of the phones.

Price: ₹ 2127, ₹ 1733 and ₹ 1416

New Range of Low-Priced HD LED TVs

With screen size ranging from 40.64 cm (16-inch) to 58.4 cm (23-inch), the TV sets have been priced between ₹ 7499 and ₹ 12,499

Intex Technologies has expanded its consumer electronics (CE) business by launching an all-new range of LED TVs. The latest range of LED TVs comprises LE23HDR06-VT13 58.4 cm (23-inch); LE20HDR05-VT13 50.8 cm (20-inch) and LED1601-ME13 40.6 cm (16-inch).

Commenting on the launch, Nidhi Markanday, DGM, business and operations, Intex Technologies (I) Ltd, said, "LED TVs in India are strongly emerging as a dominant growth category and the demand is expected to only grow in the coming years. These

launched models are feature-rich and are meant for the price-conscious consumers."

Upgraded Version of Google Nexus 7 Android Tablet

New Nexus 7 directly competes with Apple iPad as it is a slimmer device and can fit into a handbag or pocket.

The much-awaited Android tablet PC has finally arrived. Putting the speculations to rest, Google unveiled the upgraded version of its super-successful Android tablet Nexus 7.

The ramped-up Google Nexus 7 has been manufactured by ASUS. The tablet PC was launched along with a chrome-cast dongle, which allows users to plug into television sets and route online content easily to their big screens.

The tablet PC is a direct threat to Apple iPad as it is a slimmer device and can fit into a handbag or pocket. Talking about its dimensions, the 17.7cm (7-inch) device is about 2mm thinner and the bezels have been reduced by 2.75 mm as compared to the previous version of the Nexus tablet.

The new Nexus 7 features a full HD 1920x1200p display and runs on 1.5GHz quadcore Snapdragon S4 Pro processor.

Google has launched the new Nexus 7 with Android 4.3, the latest version of Android OS. Android 4.3 offers Bluetooth Smart Technology support, better multi-user capabilities and OpenGL ES 3.0. Google will be selling the Nexus 7 in three variants—16GB Wi-Fi only, 32GB Wi-Fi only and 32GB Wi-Fi + LTE.
