MAKE NO COMPROMISE ON PERFORMANCE,
CHOOSE THE BEST!
APALIS COMPUTER ON MODULES

MEET OUR ENGINEERS AT

Embedded Systems Technology
Forum (ESTF), Bengaluru, India
02nd-04th September 2015

Electronica India 2015,
New Delhi, India
09th-11th September 2015

Apalis T30

- Nvidia Tegra 3, Up to 1.4GHz frequency
- On-board Flash up to 8GB, RAM up to 2GB
- Supreme graphics & industrial temp. support
- High speed interfaces (PCIe, SATA, Gbit Ethernet)
- Industrial interfaces (UART, I2C, SPI, etc.)

Apalis iMX6

- Freescale i.MX 6Q and i.MX 6D, Up to 1GHz frequency
- On-board Flash up to 4GB, RAM up to 2GB
- Industrial temp. support
- High speed interfaces (PCIe, SATA, Gbit Ethernet)
- Industrial interfaces (CAN, UART, I2C, etc.)

Windows Embedded Compact (WEC)

- Free pre-built images for WEC 7 & 2013 developed in-house
- Runtime license included in price of module
- Freely downloadable BSPs, workspace & libraries
- Enhanced features compared to standard WEC

Embedded Linux

- Highly optimized BSPs developed in-house
- All peripherals are supported out-of-box
- BSPs based on Ångström / OpenEmbedded being fully Yocto compatible
- Customers can modify & redistribute the source code

(2:5)

Carrier Boards

- Off-the-shelf carrier boards available
- Design files freely available for custom board development

3rd Floor, LXY Aura, 99/D, KHB Colony, Koramangala, 5th Block, Bangalore-560095, India
