

WHEN WE SAY INNOVATION, WE MEAN IT!

Visha World has been consistently pushing curiosity to the next level since last 36 years. Our customer centric solutions and unconventional product range starting right from a minuscule tool to sophisticated electronic modules enables us to add more power to the world of electronics.

COMPONENTS & TOOLS

When the competition on the rise, Production Kitting Tool takes the charge, with the lower inventory cost and flexibility to deal with the sudden supply and demand variations, it gives a competitive edge.

FUN WITH JOY

For the budding engineers and scientists with the strong inclination towards electronics, Fun with Joy, an educational electronics hobby kit, is just the right medium to explore.

SENSORS & SENSOR MODULES

Experiment, learn and build DIY electronics projects with the convenience like never before. From Arduino and Arduino-compatible boards to complete DIY electronic kits, there's something for everyone.

3D PRINTING

When there's creativity involved, one can go to any extent with the 3D Printing, as it enables to design and create a mechanism from scratch with the practical applications.
