

LCR Meters & Impedance Analyzers

HIOKI
EE Corporation, Japan

IM7583

Measurement frequency
1 to 600 MHz

IM7585

Measurement frequency
1 to 1.3 GHz

Available in
300MHz, 600MHz &
1.3GHz offerings.

- Ideal for common mode filter and chip inductor production lines
Perfect for R&D and production of ferrite chip beads and chip inductors.
R&D applications • Measure frequency characteristics and level characteristics
- Five-model equivalent circuit analysis
 - Measured value search function

Distributor
