

SDH697XFS Silan Solution For India LED Bulb Application

- Direct supply technology (no need of Vcc supply circuits)
- PF>0.9
- THD<10%
- Efficiency>87%
- Quick start, start up time <100mS
- Anti-surge>2.5KV
- Low comp count (only 13 components)  
(Including anti-surge and EMI)
- Non-isolated BUCK topology
- 550V MOSFET integrated

[illegible]

## SD692XF Silan Solution For India LED Tube Application

- Non-isolated buck topology
- Line and load regulation:  $\pm 2\%$
- High power factor,  $PF > 0.9$ ,  $THD < 15\%$
- Efficiency  $> 87\%$
- Vcc over-voltage protection and UVLO
- Output open/short circuit protection
- 600V MOSFET integrated

## SD680X Silan Solution For India LED Downlight/Streetlight Application

- Boundary conduction mode
- Primary side regulation
- PF>0.95, THD<10%
- Output open/short circuit protection
- High voltage MOSFET integrated (SD6802S, SD6804AS, SD6807D)
- Maximum power<80W
- Designed for downlight/streetlight
