

ChipMax Proudly Introduces the 4th Generation SMT Desktop Pick and Place machine from Neoden, with Highly Intelligent flying Vision System, and first of its kind.

Built-in Automatic Conveyor System:
Complementing the mounting capability of the machine up to 1.2 meters PCB size.

Four Heads with 360 Degree Orientation:

Integrated Industrial Host & Solid State Drivers:

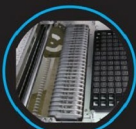

CM-4IV Intelligent Vision

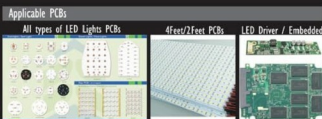

High Speed Flying Vision Camera System:

Universal Interface port:
For synchronizing the external conveyor links to both Solder Paste Printer & Reflow Oven to ensure Complete Process Automation

Automatic Electric feeders with brush less motor:

Recommended SMT Production Setup

Solder Paste Printer

SMT Pick & Place Machine

SMT Reflow Oven
