

# Educational and Training Kits

Learning electronics can be fun if you have the correct tools to explore. This month we have a few websites that provide you with educational and training kits

NIRAJ SAHAY

## kitsnspares.com

Kits'n'Spares is an Indian manufacturer and marketer of do-it-yourself electronics projects and hobby kits. The site has a huge variety of kits spanning differing technologies like robotics, RFID, GSM, ARM and VLSI. With the aim to become a one-stop shop for design engineers, budding engineers (students), engineering colleges, training institutes and hobbyists, the site also provides electronics-related books, development boards and other electronic components.

[www.sparkfun.com](http://www.sparkfun.com)

## sparkfun.com

SparkFun is an online retail store that sells bits and pieces for various electronics projects. No matter what the vision is, the products and resources are designed to make the world of electronics more accessible to the average person. In addition to this, SparkFun, through its department of education, offers classes and online tutorials designed to help educate individuals in the wonderful world of embedded electronics. The site offers products and components designed to help unleash an individual's inner inventor.

## element14.com

element14 is a high-service distributor of technology products, services and solutions for electronics system designs, maintenance and repairs. It offers educational electronic kits from different brands under one roof.
