STK India launches action camera

The explorer's camera

The action camera is a go-anywhere, rugged, compact, waterproof camera, complete with 19 accessories. It is high on specifications and is best suited for an active lifestyle. From everyday life to hair-raising memories, STK explorer camera records your favorite memories. It weighs only 58gm, comes with a tough waterproof case for underwater use (the case is water resistant up to 30m) and has a 900mAh battery with 90 minutes standby time. It features a variety of mounting options. The handlebar mount secures the camera to handlebars, poles and more, while the helmet mount fixes it to any helmet.

After shooting, you can connect the camera to a smartphone via Wi-Fi, and transfer and share pictures and videos instantly with the mobile app. The app (available for iOS and Android) turns the smartphone into a viewfinder to watch recorded action or live streams from the camera as well as makes it a fully-functional remote control, enabling you to start and stop video recording and take photos via your device.

Wallet speakers by Spider Designs

A portable speaker, power bank and Bluetooth in one

This innovative wallet is a portable speaker that has anti-slip backing, aluminium finish and is incredibly thin and scratch resistant. The resilient brushed aluminium chassis is accented with ceramic ally-bonded chamfered edge for timeless appearance. The wallet makes it possible to enjoy music, with an eight-hour battery life, while charging another device with a side USB port. Streaming music and media to paired devices is easy via Bluetooth, allowing you to take a call and then return to your music. The versatile, dual-microphone conference mode provides echo and noise cancellation that reproduces your calls as if everyone

is in the same room. The featured power bank has a capacity of 3000mAh for recharging your devices.

Advent unveils Bluetooth headset

A treat for music lovers

Advent, the flagship brand of Adit Infratel Pvt Ltd, has launched its latest Bluetooth headset BT500 in the EchoPhonz series with built-in mic. This ergonomically-designed headset has chrome borders, comes with Bluetooth version 3.0 and offers a range of up to ten metres. Delivering crisp studio-quality sound with enhanced bass, EchoPhonz BT500 packs up to six hours of successive playing time, thanks to its in-built powerful rechargeable lithium-ion battery. The foldable headband and ear cups make it convenient to carry around—simply fold it, store in the backpack and head out! The headset sports on-ear controls to perform various functions like switching between music and calls and volume control. Additionally, EchoPhonz BT500 comes with FM, a mini USB charging interface and a micro-SD slot.

Smart fitness band by ENRG

A true companion for all fitness activities

Actiwear by ENRG is a smartband that stands out for its sleek design. You can tie it around your wrist and carry on with your daily activities. It tracks all activities, workouts and calories burned, distances travelled and sleep patterns. It also keeps you updated about new messages and incoming calls through real-time notifications. Some interesting features include a 75mAh lithium-ion-polymer battery that lasts around five days, Bluetooth version 4.0 and dual control mode (touchscreen and gesture control).
