Pioneer India unveils AV player

A perfect travel companion

AVH-X5890BT comes with Pioneer's unique AppRadio mode technology, which is compatible with both iPhone and Android phones. With AppRadio mode, compatible navigation and music apps can be viewed and controlled directly from AV player's touchscreen. AppRadio can be easily connected by plugging in the phone with its original data cable. Some compatible applications with Pioneer AppRadio mode include Navmii (offline navigation app), Navitel (navigation app with detailed map data), EC Touch for accessing smartphone's music and AppRadio Live for online services like checking weather information, finding nearby events, accessing Internet radio, news reader and much more.

The touchscreen head unit features a 17.8cm-wide touchscreen with LED backlight display, AUX input, USB port, smartphone apps compatibility, built-in Bluetooth, Siri voice control (through Bluetooth) and offers two-year warranty.

Zebronic launches gaming cabinet

For the gaming enthusiast

Zebronic gaming cabinet H2 not only adds character and attitude but also muscles professional gaming and high-end graphics, while ensuring extensive cooling advantages, aesthetically-appealing design and expandability for its users. H2 sports a rugged build quality with sturdy structure, glossy armour-inspired front panel and black interiors.

Price
₹ 2700

To disperse accumulation of heat generated by the system, H2 comes with dual 80mm side fans with a back grill and provision for optional fan on the rear panel, for superior cooling airflow. Utilising seven expansion slots, the cabinet is compatible with most GPUs available in the market and could absorb up to ATX motherboards. It comes with audio, three USB 2.0 and one USB 3.0 ports located on the top of the front panel for easy access.

Truecaller launches TrueSDK for simplifying user registrations

Phone directory app Truecaller has launched TrueSDK that helps users utilise their Truecaller credentials to log in to third-party apps and verify their phone numbers (if required), saving them time. The service can be used by developers to sign up, update users' information or verify their phone number based identities in their mobile apps through users' consent.

Remix OS, the Android operating system for desktop

Remix OS is the unofficial desktop operating system (OS) for personal computers that is based on Android OS. It is neither made nor is being promoted by Google as their own OS for desktops (Google already has Chrome OS). Remix OS, on the other hand, has been made by three ex-Google employees whose company goes by the name Jide Technology. The OS is still in its alpha stage.

Exam Central by Amazon India

A one-of-a-kind portal for exam books has been launched by Amazon India. Exam Central can be found under Books Department on the website. Users can access sample question papers, solved papers and articles from academicians for entrance exams. The portal also features exam information and calendars, preparation books, study material, exams-preparation tips as well as FAQs.
