

All The Right Connections

Wired iSeries

Did you know VPC can manufacture a complete wired iSeries solution?

Our iSeries product line offers rugged and reliable cable assemblies for all your test and measurement needs.

Choose from a wide selection of interchangeable modules and contacts that allow you to create the perfect solution specific to your application. Available connection options from signal, power, coaxial, fiber, to high speed (VTAC).

Our Wire+ Advantage provides engineered, manufactured, and quality tested wire products. Cable options of iSeries to iSeries, flying lead cables, or iSeries to any vendor connector are available.
