

Auxus launches Auxus Beast

India's cheapest 3GB RAM smartphone

For ultra-high performance, Auxus Beast comes with 3GB DDRIII RAM and 16GB inbuilt memory, which is further expandable up to 128GB via MicroSD card. Auxus Beast has dual SIM slots, both supporting 4G LTE that works in India as well as most parts of the world, with FDD_LTE bands B1/B3/B7/B20 and TDD_LTE bands B38/B39/B40/B41, along with 2G and 3G networks.

Auxus Beast supports global positioning system (GPS) with AGPS, offscreen gesture sensors, Harlequin LED notification colours, 13MP rear camera and 5MP front-facing camera, both of which support auto-focus, along with key sensors including light sensors, proximity sensors and accelerometer sensors running on Android Lollipop 5.0 out-of-the-box, powered by 3050mAh battery. The device has a sturdy, matte finish body with 8.2mm thickness, providing a firm grip.

Kindle Voyage by Amazon

Crafted for the love of reading

At just 7.6mm thin, Kindle Voyage is the thinnest Kindle ever. The high-resolution 300ppi display offers crisp text that reads even more like the printed page. The micro-etched glass screen is crafted to eliminate glare and matches the feel of paper.

PagePress, a custom-designed force sensor made of carbon and silver, enables you to turn the page without lifting a finger; just apply pressure on the bezel to turn the page. You can also turn the page with a tap or a swipe on the screen. The adaptive front light provides ideal brightness, day or night; it senses the envi-

ronment and automatically adjusts to the ideal brightness level.

Sony unveils PumpX

Bluetooth speakers for party freaks

These speakers deliver powerful surround sound of 20W, and the sturdy built gives resounding effects with sharp highs, bassy lows and all-around premium audio, which makes these the perfect choice for casual get-togethers or outdoor adventures. Music can be streamed from any Bluetooth-enabled or NFC-compatible device.

The impedance of the speaker is 8-ohm. It is lightweight and fits easily into a bag as it does not take up much space, a feature that allows

easy portability. It weighs around 500gm and measures approximately 171x60.5x56.5mm. It uses DC 5V 1.5A (using USB power supply) or a built-in lithium-ion battery as its power source.
