ThinkRF Corp., engaged in providing cost-effective, high-performance RF receiver front ends, tuners and spectrum analysers has announced appointment of Bengaluru based VigVen Tech Mark Pvt Ltd as the distributor for India for their entire range of products and solutions.

leading engineering institute, has announced the successful completion of a 1.25MW rooftop solar power project.

As part of this project, SASTRA has signed a power purchase agree-

Tata rooftop solar power plant

ment with Tata Power Trading Co. Ltd (TPTCL). As project's investor, TPTCL will sell power generated from the plant to SASTRA for a period of 15 years.

Commissioned as part of the university's green energy efforts, these plants will offset 30 per cent of the university's total energy consumption. These plants will generate nearly two million kWh energy annually and will reduce more than 1600 tonnes of carbon dioxide emission.

BEL achieves exports worth US\$ 58 million

Navratna Defence PSU Bharat Electronics Limited (BEL) ended the financial year 2014-15 by registering a sales turnover (provisional) of ₹ 66.71 billion, a growth of eight per cent over previous year's turnover of ₹ 61.74 billion.

BEL achieved exports worth US\$ 58 million in 2014-15, registering a growth of 38 per cent over previous year's export turnover of US\$ 42 Million.

Some significant orders executed during 2014-15 include missile systems for Indian Air Force and Indian Army, passive night vision devices, tactical control radars, ship-borne electronic warfare systems, hull-mounted sonars, fire control systems, missile warning systems and combat management systems.

Sunil Kumar Sharma, chairman and MD, BEL, said that about 80 per cent of the sales turnover came from indigenously developed technologies.

Huawei aims to double India telecom devices revenue

Huawei Technologies intends to more than double its revenue coming from smartphones, tablets and data cards sales in India to almost US\$ 500 million in 2015, even as it considers manufacturing devices locally.

The company intends to improve its position in the fast-growing Indian smartphone market with a two-pronged strategy of using two brands, Huawei, which will be available on all sales channels and Honor, which will be sold exclusively online.

Philips to double market share in TV segment

Philips has plans to double its market share in the TV segment to 10 per cent in the country by the end of 2016.

The company sells its product in India through its official brand partner, PE Electronics, who took over the TV segment from Philips in 2010. In this segment, India currently contributes four per cent of the global market, which was valued at around US\$ 225 million.
