

The World's Fastest Growing Oscilloscope Company

SPO

Super Phosphor Oscilloscope

- Waveform capture rate up to 110,000 waveforms per second
- Memory depth up to 28Mpts
- Hardware-based digital trigger system, lower trigger jitter and higher stability
- Support 256 intensity grading and color temperature waveform display

SDS2000 Super Phosphor Oscilloscopes

70-300MHz 2/4CH 2GSa/s 110,000wfms/s
28Mpts memory depth MSO (optional)

Our Products Include:

- * Digital Storage Oscilloscopes
- * Arbitrary Waveform Generators
- * Digital Multimeters
- * Power Supplies
- * Handheld Oscilloscopes

SDS1000CML Digital Storage Oscilloscopes

70-100MHz 2CH + 1EXT 1GSa/s
2Mpts

SIGLENT always ensure customers to provide Best Products, Technologies, Solutions at very reasonable justified price.
