manufacturing facilities at the hardware hub being developed by Andhra Pradesh government.

This move has come after Foxconn, the world's largest contract mobile handset maker, decided to set up a manufacturing plant in the state. The state government is looking at creating an ecosystem and has been in talks with more mobile handset and component makers, including Lava and Intex. The government has formulated very attractive industrial policies with special incentives pertaining to value-added tax exemption to attract electronic hardware and components manufacturers.

The state has also identified government land close to the air cargo facility of Renigunta airport, which it may allot to hardware components manufacturers.

China's LeTV plans to enter India

Chinese tech firm LeTV has plans to build up a presence in India, which is one of the fastest growing markets for smartphones and other smart devices. The Beijing-headquartered LeTV, one of the leading manufacturer-marketers of smartphones and other smart devices, has recently set up operations in the USA.

With employee strength of 5000, the company has a market capitalisation of around US\$ 12 billion on Shenzhen Stock Exchange. LeTV is an 11-year old company and has grown into a full-fledged multinational with a wide range of products including smartphones, smart TVs, smart electric vehicles, movies and TV shows and sports events.

Delta Electronics to invest US\$ 225 million in India

Taiwan-based Delta Electronics has decided to invest US\$ 225 million in setting up a power supply manufacturing plant and product development centre in India in 2016. The investment is part of the US\$ 500 million investment commitment made by the company's CEO Ping Cheng at Digital India event held in July.
