

LYCOS launches interactive smartring

Wrap the power of security and accessibility around your finger

LYCOS Life ring offers two key features: Personal Security Manager that lets you log in to apps and websites on your phone with just a tap, and wireless Tap2Transfer communication that lets you transfer messages, contact information, location details and much more.

The ring is water resistant up to 1m and 30 minutes under water. It collaborates with your smartphone via LYCOS Life app, which is compatible with Android 4.3 and up and near-field-communication-enabled devices.

Around-ear wireless headphones by Bose

For deep, immersive sound at any volume

The new SoundLink headphones from Bose offer a combination of TriPort technology and Active EQ that delivers crisp and powerful sound at any volume. The versatile headphones are designed to optimise phone calls, too.

An advanced microphone system with HD voice and adaptive audio adjustment provides clear calls even in windy or noisy environments. These weigh only 149.4 grams, have a wireless range of up to 9m and give 15 hours of play time on three hours full charge.

OLED TV from LG

Dive into an illumination of unmatched colour

The curved OLED TV in 4K ultra-HD resolution from LG presents a near-perfect image with the brightest whites and darkest blacks in any lighting style or quality. It illuminates all colours to life with 33 mega colour pixels. The increased number of sub-pixels amplifies the picture quality as well as the viewing experience. Each of the 8.3 million individual pixels consist of four colour pixels that bring white, red, green and blue together with more brightness and precise colour accuracy. At four times the resolution of full-HD 1080p, the images are enhanced with ultimate detail and clarity.

Price: ₹ 384,900

This smartTV lets you navigate your favourite viewing content with Magic Remote. You can interact with your TV with an easy point, click, scroll or a voice command. It comes with battery-free 3D glasses that convert a standard 2D movie or show into a dynamic 3D display, while keeping the sharpness of the four-fold 4K resolution.

YU launches pocket printer

A portable printer that brings your favourite pictures to life in seconds

YuPix, the smart pocket printer by YU, is smaller than a tablet. It comes with an innovative cartridge that combines printer ink with print sheets. The two-in-one cartridge is very easy to replace; simply slide the cartridge unit in from the sides. The printer has a resolution of 291dpi, print time of 60 seconds, is waterproof, weighs 270 grams and offers a print size of 54mm x 86mm, among other features.
