Delhi Police launches One Touch Away app

Delhi Police's new app for Android phones makes it easier to get in touch with law enforcement officers. It has been designed primarily to help people connect with concerned officials and report crimes using their phone. Its key feature is the built-in directory that carries mobile phone numbers of all police officers including the traffic police. The app also serves as an umbrella app for the police's existing websites such as Lost Report, Traffic app and Himmat app for women.

Ping by Flipkart adds social experience to online shopping

Online marketplace Flipkart has launched Ping, a new in-app chat feature that lets users share product images and chat with each other while shopping. Using this feature, users can message friends using text, photos and emoticons. They can drag and drop products from Flipkart directly into a conversation, and share their screens with friends to browse together and make a purchase decision.

HIT - Track the Bite app helps track mosquito infestation

An initiative of Godrej Consumers Products Ltd, the app provides real-time tracking on mosquito infestation. It aims to aid in the prevention and control of vector-borne diseases such as dengue. Using this app, you can locate high-risk areas and also get tips on how to stay safe, report infestation in your area and alert friends about infestation at their location.

MobileFusion turns your phone into a 3D scanner

The new app by Microsoft enables you to create 3D scans in seconds with your smartphone. It does not require any extra hardware or an Internet connection. Simply open the app, and point and shoot using a standard smartphone camera.

Zebronics launches Zeb Juke Bar

Upgrade your home cinema experience

Bring your movies and music to life with Zeb Juke Bar, which comes with 49W RMS output along with a down-firing sub-woofer. The sub-woofer comes with 13cm drivers for low-frequency response and 8cm drivers for high-frequency response. The speaker is capable of reproducing sound in 40Hz-20kHz

range. Equipped with 3-channel built-in amplifier, the speaker offers plenty of power, low distortion and high-efficiency sound. The large driver delivers solid low-ends and crisp highs, so you can play audio in impressive detail from any phone, tablet or computer.
