

Buying a Roof-top PV Solar System?

SAVE YOUR MONEY!!!

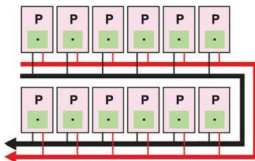

**MITRAMAX ENERGY SAVES 20% OF
YOUR CAPITAL COST
IN BUYING A PV SOLAR PLANT!**

**MITRAMAX ENERGY has Australian Innovation Patent
For LEECH PV SOLAR MODULES
THAT HARVEST 20% MORE SOLAR ENERGY**

For example,

Buying MITRAMAX 8kWp PV Solar Plant will give same
energy output as from a conventional 10kWp PV Solar Plant!!

UNIQUE FEATURES of LEECH PV TECHNOLOGY

- Extracts maximum solar energy 'like a Leech' from a PV Module
- Patented ruggedized Controller; integrated MPPT + DC Boost
- LEECH PV Modules harvest 15 to 20% more solar energy
- Daisy Chain of LEECH saves time & junction boxes
- Can connect Hundreds of LEECH modules for higher energy
- No matching of modules is essential like in a series strings array
- Avoids huge energy loss caused by shadow in series strings used
- Avoids conduction losses due to currents with fewer junction boxes
- Environmentally designed to work at temp from -40°C to +80°C
