

Make it super thin

Make magic with plastics

Thinner. Lighter. How ambitious are you for your next phone, tablet or ultrabook? Now you can design parts and components as thin as 0.1mm, and they will be rigid and durable. High flow plastics from DSM, outperform every benchmark. We work with designers and engineers at the world's leading mobile brands to create the next generation devices. They challenge us to make their designs for frames, enclosures, antennas, connectors (e.g. audio jack, USB Type-C) and cables possible with plastic. We innovate advanced plastics and work with the component manufacturers to turn their design vision into reality. What's possible for your next device? Make it thinner. Stronger. Without harmful substances. Contact your local DSM expert and share your challenge.

BRIGHT SCIENCE. BRIGHER LIVING.

GIVE AN ELECTRONIC EDGE TO YOUR BUSINESS WITH SOLDRON SOLDERING STATION

SOLDRON 938

Temperature controlled digital soldering station

SOLDRON 8780

Hot air and soldering station

Visha World hosts a comprehensive range of electronic solutions including Components & Tools, Fun with Joy kits, Sensors & Modules and 3D Printing & Prototyping. We provide the much needed competitive edge to electronic professionals with the best-in-class soldering solutions. Soldering station is digital temperature-controlled device with temperature and display adjustments. Suitable for mounting and reworking SMD components by hand, it ensures rapid warming-up and stable temperature control.

17, 1st Floor, Ganesh Bhavan, 357, Lamington Rd., Opp. Lamington Road Police Station, Mumbai - 07.
