

RECOM

Perfection in Power Conversion

electronica India 2010

Visit us at :

Stall No. **2215**, Hall No.2

7th to 10th September 2010

**High isolated
DC/DC converters**

- Up to 10k DVC insulation
- Ultra compact
- Standard DIP24 casing
- Ambient temperatures of up to +85°C
- 20 percent higher nominal current
- Approved for medical devices (EN, CSA, CB)
- Resistant to short circuits and overload

**High temperature
DC/DC converters**

- Ambient temperature range up to 100°C (natural convection)
- Integrated FCC/EN-55022 class B EMV filter (no external components needed)
- Outstanding efficiency
- Low stand-by power consumption
- Integrated heat sink
- Electrical isolation up to 3kVDC
- Fully protected outputs

RoHS 6/6 SMD converters

- RoHS 6/6-compliant
- UL-certified
- Low electromagnetic radiation
- Ambient temperature -40°C up to +100°C without derating
- Replaces the RSS/RSD series
- Enclosed open frame design
- Outstanding performance at lower price

 **Omniscient**
Electronics Pvt. Ltd.

No. 507, 9th Main, Banashankari II nd Stage, 560 070 Bangalore
