Affordable gaming devices from HCL

HCL Infosystems has entered the gaming market to reach out to the children of the age-group of 4 to 15 years with special gaming content, rich with brain-train features. The HCL ME handheld gaming devices are going to be available for Rs 799 to Rs 4990.

Motorola's entry-level phones

Motorola India has expanded its popular MOTOTYUVA range with five new entry-level mobile devices. The WX range now features the stylish WX181 candybar handset with FM radio and integrated light torch, and the WX260 and WX265 that add Bluetooth, integrated MP3 players, expandable memory of up to 2 GB and GPRS connectivity. The range is completed by the WX290 and WX295, which adds a digital camera to the MOTOTYUVA WX feature set.

Vodafone solar-powered phone

Vodafone Essar has launched an eco-friendly solar charging handset in India. The VF 247 solar-powered phone charges by itself, by exposure to ambient light. Sun Boost, the special inbuilt hardware and software, ensures that the phone charges also in a room, under normal daylight.

Buffalo Full HD media player

Buffalo Technology has announced its LinkTheatre Full HD media player (LT-V100-AP). Designed with HDTV screens in mind, the player can adapt video content up to a 1080i resolution. It includes networking via Ethernet connection, digital audio output, a USB port to directly connect your media files on your USB storage device, HDMI and Composite video outputs, and the ability to natively play an array of the latest audio/video formats.

ULTRA-SLIM CRT TV WITH USB PLAYBACK

ONIDA'S MOVIE TVs PLAY MUSIC AND MOVIES DIRECTLY FROM USB FLASH DRIVE

ONIDA has launched a range of ultra-slim Movie TVs that enable consumers to watch movies, view photographs and listen to music directly from their USB port. These TVs come in exciting 53cm (21-inch) variants such as Ace 300, CARBON 300, ARIA 350 and Thunder 1200.

In addition to the USB playback, the Movie TVs feature music mode (allows you to listen to music without the picture being on), surround sound in hall and theatre modes, zap! key (lets you skip advertisements while watching the TV), digital eye (adjusts the contrast or brightness of the TV as per the room

Price: 53cm Ace 300 USB: Rs 9190 onwards

ambience) and WRAP sound technology (hidden speakers enable the wide-range, amplified pure sound to spread across an entire room).

TOUCHSCREEN MP3 PLAYER

CREATIVE ZEN X-FI2 FEATURES A TOUCHSCREEN AND TV-OUT CAPABILITY

Creative ZEN X-Fi2 MP3 player has no fussy buttons involved. Rather, it features a 7.6cm (3-inch), touch-sensitive, TFT LCD capable of displaying up to 262,000 colours, so you can access all the features of the player instantly. The earphones are designed to block out external noise and come in

three different sizes of ear tips to offer you optimal comfort.

Besides a bigger screen size than its predecessor, the ZEN X-Fi2 supports multiple audio formats including the much desired 'free lossless audio codec' (FLAC), which delivers audio without compromising on its original quality. The player also supports iTunesPlus (unprotected AAC format), which compresses audio data much more efficiently than older formats.

You can choose between player capacities of 8 GB and 16 GB. And if you need more memory, simply add a microSD memory card into the built-in slot.

The ZEN X-Fi2 also supports RSS feeds offline and video-out to share videos and photos on the big-screen TV.

Price:
8GB model: Rs 8999
16GB model: Rs 11,999
