

Time to change your humidity sensors!!

ChipCap is the next generation relative humidity and temperature sensor and is aimed HVAC, automotive, medical and appliance OEMs. It eliminates the need for calibration, saves manufacturers capital equipment costs and calibration labour time.

- Simplified Integration
- Interchangeability
- Factory Calibrated
- Flexibility
- SMT- Compatible
(surface mounted technology)

* •Thermistors •Pressure dies/sensors
also in the GE range. Email for information.
