## Super Cassettes Industries to sell mobile phones

Indian entertainment company Super Cassettes Industries plans to enter India's growing mobile phone market by bundling some of its audio and video content free with handsets.

The company will start selling mobile phones in coming January and plans to sell the phones under the T-Series brand of its entertainment content.

Neeraj Kalyan, vice president of the T-Series, expects that the T-Series brand name, the product and the free content will help the company reach sales of 700,000 mobile phones a month in three years. The content may come built into the phones or may be available for free download by users.

## TCL to invest in India

TCL, the Chinese electronics and appliance manufacturer with a brand value of \$6.84 billion, is planning to expand its sales and services network across India, from the current base of 20 branch offices and dealer network of over 5000, which is supported by 136 service franchisees.

Li Dongsheng, chairman of TCL Group, said, "India, being one of the

fastest growing economies in the world, is one of the strategic markets in our global expansion plans. We are committed to bring to our valued Indian consumers a product-line that is a perfect blend of advanced technology and innovative features."

## Mirc Electronics aims Rs 20-billion turnover

Mirc Electronics, manufacturer of Onida brand of consumer durables, is targeting a turnover of Rs 20 billion

Amara Raja Powersleek industrial batteries

this fiscal.

G. Sundar, CEO, Mirc Electronics, said, "Going forward, we expect our three business verticals (mobiles, LED TVs and air-conditioners) to account

for revenues of Rs 10 billion each over the next two years or so." The company also plans to set up a manufacturing facility, most probably in down south India.

## Samsung to expand Chennai operations

Samsung Electronics plans to invest Rs 3.5 billion for expanding its manufacturing facility at Sriperumbudur in Tamil Nadu. The company would also use the additional investment to manufacture consumer durables and electronic equipment, including mobile phone components. To this effect, the company has signed an MoU with the Tamil Nadu government.

"The project will provide direct employment to a thousand persons," informed J.S. Shin, chairman and managing director of Samsung India Electronics.

## Amara Raja to expand overseas

Amara Raja Batteries is planning to invest Rs 1.3 billion to increase production as well as to meet the growing demand for batteries in the Indian automotive market. The company is aiming to become a global brand by setting up a manufacturing unit in South-East Asia and Africa.

Jayadev Galla, managing director, Amara Raja Batteries, said, "We have been studying to set up manufacturing locations overseas as exporting to far-off markets is commercially unviable."
