

Dell launches 3G Android phones

Dell has brought two Android-based smartphones—the XCD28 and the XCD35—to the Indian market. Priced at Rs 10,999 and 16,990, respectively, the phones support 3G for high-speed connectivity, WiFi and Bluetooth.

XCD28 Android-based smartphone by Dell

"In the fast growing Indian mobile market, this will allow more and more younger generation and mobile professionals to access a rich browsing and multimedia experience, backed with the assurance of an uncompromising, market-leading service support. We chose to launch the new XCD range of smartphones first in India to offer a complete portfolio of Dell mobile Internet products in all screen sizes," said Mahesh Bhalla, general manager (consumer and SMB), Dell India.

Wipro TV launched

Wipro, known for its novel ways of marketing, has launched Wipro TV

Consumer electronics market to grow at 15 per cent

According to a report from RNCOS, the Indian consumer electronics market is expected to grow at a CAGR of around 15 per cent during 2010-13. Factors such as rising middle-class population and rapid economic growth will be the reasons for the growth.

Dish TV becomes Asia's largest DTH service

Dish TV claims to have become Asia's largest DTH company with more than nine million subscribers. Jawahar Goel, managing director, Dish TV India, said, "We are now less than a million short of the critical ten million subscriber mark. Dish TV is close to crossing the hump and all set to reap benefits of constant innovation and product differentiation at the packaging, servicing and distribution end."

Mahindra Group to enter solar business

Mahindra Group, led by Anand Mahindra, is planning to venture into solar energy generation business in the coming months. Currently, it is on the lookout for a partner to bring in domain expertise as well as funding for the venture. The solar power generation venture, once concluded, will be Mahindra's third private-equity-backed business foray in the last few years.

LG aims bigger exports from India

LG Electronics India is aiming a 60-70 per cent growth in exports from India in 2011. It has identified LCDs and mobile phones as its strategic products and plans to scale up its market share in the mobile phone segment significantly in the next few years.

Delta to introduce its own LED bulbs

Delta Electronics, in a significant contrast to its long-term role of Hitachi and Osram bulbs supplier, will launch its own LED bulbs in India by the end of 2010. As the LED bulb market is estimated to grow five- to ten-folds globally in 2011, Delta is reportedly seeking contracts from big-name suppliers for the manufacturing.

Nokia takes rural route to growth

Nokia is focusing on Indian farmers to increase its sales. Its Ovi Life Tools service covers agriculture, education and entertainment and delivers related information to mobiles. In a country where just seven per cent of the population has access to the Internet, such real-time market data is immensely valuable to the farmers.

as part of its branding initiative. The channel will air white papers by the company and content developed by other television channels about the company's leadership.

"The idea behind the channel was to create an online conduit for our senior leadership to share views, best practices on business topics that can help clients in their business strategies," said Rajan Kohli, chief marketing officer, Wipro Technologies. "The channel has been one of the most frequented online properties of Wipro and the target audience for this initiative is clients, media and analysts who cover technology," Kohli added.

Expo on mobile sourcing and investment

Communications and Manufacturing Association of India (CMAI) is organising an exhibition on the latest mobile handsets and accessories at NSIC Expo Grounds of New Delhi on December 15 and 16. About a hundred exhibitors from China, Taiwan, Korea and other countries are expected to display their products at CMAI International Mobile Sourcing and Investment Fair 2010.

The event will act as a platform for exploring business tie-ups for agency, dealership, distributorship, servicing or manufacturing of mobile handsets and accessories directly from manufacturers.
