

Some Are Simply Better Than Others!

Tabor's New WS8101/2 Arbitrary Function Generators

The Wave Standard Series is a family of single and dual channel arbitrary / function generators, designed to provide superior performance at a low price. The new series incorporates Tabor's award-winning "best of both worlds" technology, having both memory-based, true arbitrary waveform generator architecture for accurate, jitter-free waveforms alongside a DDS-based generator to create all the standard modulation formats. Packed into a compact and efficient 2U -rack size box, all in one easy-to-use high performance unit, makes the Wave Standard series, by far, the best in its category (AFGs) for size, price and performance.

MODEL	Tabor WS8101/2
Channels	1 2
Architecture	True Arb + DDS
Max Frequency (Sine/Square/others)	100MHz 100MHz 12.5MHz
Max. Sample Clock	250MS/s
Max. Memory Size	512k
Vertical Resolution	16 bits
Max Amplitude (into 50W)	16Vp-p
Rise / Fall Time	< 5ns
Square Wave Jitter (rms), typ.	< 100ps
DC Levels (into 50Ω)	-8V to +8V
Modulation	AM, FM, FSK, PSK, Sweep
Connectivity	LAN, USB, GPIB
Warranty	3 years standard
