

PROJECTOR

Acer K11 Mini Projector

It's so small that you can project vibrant visuals with the projector in one hand

Price
₹ 30,499 plus taxes

The pocket-size Acer K11 is claimed to be the world's smallest projector to offer 200 lumens of brightness. It is so small that you can project vibrant visuals from one hand. You can simply carry the portable projector along with a USB drive or SD card to display whatever you want to share anywhere without a laptop PC or video player. It enables high-quality enjoyment of portable entertainment by projecting videos/audio and photos from an iPod/iPhone using an appropriate Apple-certified AV adaptor.

The projector has brightness of 200 ANSI lumens, contrast ratio of 2000:1 and LED lamp life of 20,000 hours. Resolution supported is native SVGA (858x600), maximum SXGA (1280x1024) and WXGA+ (1440x900).

Other key features include keystone correction, internal speaker, HDMI port and multi-PC connectivity.

The projector weighs only 610 gm.

PRINTER

Epson PictureMate 310 Mini Photo Printer-cum-Frame

Get brilliant photo memories in print and on screen

Price
₹ 14,999

The Epson PictureMate PM310 serves not only as a professional mini photo printer but also doubles up as an attractive digital photo frame that presents images and photo slideshows on a 17.8cm (7-inch) wide high-definition, tiltable TFT screen (800x480-pixel). Its user-friendly applications also allow you to personalise your images with pre-installed photo frames that include Disney character themes and print them instantly. The printing speed is approx. 37 seconds per photo (default, borderless) and approx. 34 seconds per photo (default, w/border). The print resolution is 5760x1440 dpi.

The printer weighs 3.2 kg and has four built-in card slots for CF Type II, Memory Stick, SD and xD-picture card. It can be controlled almost completely through the stylish remote control. Control the slide show, select images, print photos and more.
