

development in the areas of network security, enterprise networking and data storage. The step is widely seen as a positive signal for improved job opportunities in India for electronics engineers in 2010.

According to the company, India is a major component of its long-term strategic plan to deliver more innovative, industry-leading products and services to meet the country's pressing needs.

Huawei to open manufacturing unit in India

Chinese telecom equipment provider Huawei Technologies is planning to invest \$500 million in its R&D operations in India over the next five years. The investment would help its India-based operations become a resource for its global operations.

The company plans to open a manufacturing unit in India that would help it avoid steep anti-dumping duties on Chinese goods. In addition, it would increase its Indian workforce from 4000 to 6000 people.

IBM to expand outsourcing operations in India

IBM is planning to open more BPO centres in India this year and would hire at least 5000 people to support this expansion. At present, it has BPO facilities in cities like Mumbai, Hyderabad, Pune, Gurgaon and Kolkata.

Rather than moving to smaller cities, IBM would prefer to expand its existing centres by opening new units. The company is scaling up its outsourcing operations in India at a time when many global companies have downsized their outsourcing contracts.

BSNL-MTNL merger on cards?

State-run telecom companies Bharat Sanchar Nigam Ltd (BSNL) and Mahanagar Telephone Nigam Ltd (MTNL) are trying harder to survive in the ever-growing Indian telecom market. The companies are losing their market share to private telcos in the country. Despite their best
