

Calendar of Forthcoming Electronics Fairs/Exhibitions/Seminars

Name, Date and Venue	Topics to be covered	Contact address for details
ESC India 2010 July 21-23, 2010 Nirvana Convention Centre Bangalore	Technical conference on embedded technologies	UBM India Fax: (022) 67692426; Phone: 67692400 E-mail: es@ubm-india.com Web: www.esc-india.com
electronica India and Productronica India 2010 Sep. 7-10, 2010 Bangalore International Exhibition Centre (BIEC) Bangalore	International exhibition and conference for electronic components, assemblies, materials and production technologies	MMI India Pvt Ltd Fax: (022) 26516372 Phone: 26452101/02/03 E-mail: info@mmi-india.in Web: electronica-india.com
GlobalTRONICS 2010 Sep. 15-17, 2010 1 Raffles Boulevard Suntec City, Singapore	Electronics manufacturing tradeshow	Reed Exhibitions Fax: (065) 67897711 Phone: 67898800 Web: www.globaltronics.com
Automation 2010 Sep. 21-24, 2010 NSE Complex Goregaon, Mumbai	Exhibition on factory automation, process automation and control systems, field instrumentation, software solutions, robotics, drives and various bus technologies, wireless technology, building automation, hydraulics and pneumatics, automation in renewable energy, LED technology and pumps and valves	IED Communications Ltd 64, Empire Bldg, D.N. Road Fort, Mumbai 400001 Fax: (022) 22074516 Phone: 22079567/3370 E-mail: iedcommunications@vsnl.net Web: www.automation2010.in
BiometricsIndia Expo 2010 e-PaymentsIndia Expo 2010 e-Security Expo 2010 RFIDIndia Expo 2010 SmartCards Expo 2010 Sep. 28-30, 2010 Bombay Exhibition Centre, Mumbai	International conference and exhibition of the technologies and their applications	Electronics Today 104, Andheri Industrial Estate Off Veera Desai Road, Andheri (W) Mumbai 400053 Phone: (022) 26730869-72
CEATEC Japan 2010 Oct. 5-9, 2010 Chiba City, Japan	IT and electronics exhibition covering electronic components and devices, digital home appliances and network services	Chizuru Noma Phone: +81-3-5402-7601 E-mail: c-noma@jessa.or.jp Web: www.ceatec.com

Since this information is subject to change, all those interested are advised to ascertain the details from the organisers before making any commitment.

efforts to efficiently compete in the telecom market through new strategies, lowering tariffs and acquisition plans to make their presence felt in the international market, BSNL and MTNL seem to be heading nowhere. But there is another possibility that can help revive these PSUs—the merger of the two, which has been under discussion for the last two years.

If a report by *The Hindu Business Line* is to be believed, the two telecom firms recently met with Prime Minister Dr Manmohan Singh to discuss this issue, as part of a plan to revive their profitability.

BSNL has footprints throughout India, except for the metropolitan cities of Mumbai and New Delhi which are managed by MTNL. Therefore the in-

tegration of their operations could put them in a better position to compete efficiently in the highly competitive telecom market.

Kits'n'Spares and Farnell join hands

Farnell, a multi-channel distributor of electronic and industrial products, has partnered with Kits'n'Spares (KnS), a 32-year-old organisation that strives to promote electronics in India, to offer students, hobbyists, individuals and electronic design engineers easy access to Farnell's extensive range of products. Farnell sells over 500,000 products from more than 3500 suppliers like Altera, Freescale, Fluke, FCI Honeywell, Molex, Microchip, Tyco Electronics and Texas instruments.

Intel to acquire FPGA vendor

Intel plans to acquire an FPGA supplier, such as Xilinx or Altera, this year in an attempt to diversify its presence in the embedded market. The company has ambitious plans to expand its presence in the embedded space; last year, it had acquired embedded software specialist Wind River Systems. There is speculation that acquisition of Xilinx or Altera would jump-start these efforts, but it is unclear to what extent the FPGA technologies would gel with Intel's.

Sony to deliver 3D entertainment products

Sony plans to deliver an array of 3D entertainment products for the home this year, leveraging all its business assets to create a 3D world encompassing electronics and games, to movie content. The company unveiled the first of its line-up of 3D entertainment products for the home at International Consumer Electronics Show (CES) 2010 held recently in Las Vegas, USA.

Sony would introduce 3D-compatible Bravia LCD TVs, 3D-compatible Blu-ray disk players and 3D-compatible Blu-ray disk players with built-in theatre systems worldwide. In addition, 3D-compatible VAIO PCs and 3D-compatible digital still cameras are scheduled to be introduced this year.

HP and Microsoft ink \$250-million deal

Hewlett Packard (HP) and Microsoft have signed a three-year agreement to invest \$250 million for simplifying technology environments for businesses of all sizes. This agreement is claimed to represent the industry's most comprehensive technology stack integration to date—from infrastructure to application—and is intended to improve the customers' experience for developing, deploying and managing IT environments.

The two companies plan to deliver new solutions that will be built on a next-generation infrastructure-to-
