ULTRA-PORTABLE NETBOOK

SIMMTRONICS SEMICONDUCTORS' SIMMBOOK PROVIDES THE POWER OF A FULL-SIZE LAPTOP IN A COMPACT BODY

Simmtronics Semiconductors has introduced a compact and lightweight netbook called Simmbook that delivers the performance needed for popular applications like e-mailing, Web surfing and instant messaging.

Features & USP. Powered by a 1.6GHz Intel Atom processor and Intel Generation 3.5 integrated GFZ core graphic VGA, the Simmbook is

Price: Rs 13,999

designed specifically for mobile computing needs. It is available in black, blue and red chassis and sports a 26cm LCD screen with 1024x600 resolution. It has a 160GB SATA hard disk drive (HDD) and can support up to 500GB SATA HDD. 1GB DDR2 667MHz memory is standard with Simmbook. Besides, it can support 667/533MHz DDR2 and has one SO-DIMM DDR2 memory slot that supports up to 2 GB.

The netbook weighs about 1.2 kg with a three-cell lithium-ion battery.

'HOME THEATRE IN A BOX' PROJECTOR

EPSON EH-DM3 LETS YOU ENJOY INSTANT CINEMATIC EXPERIENCE WITHOUT THE NEED FOR ANY FURTHER DEVICE TO BE ATTACHED

Epson has launched an innovative 'home theatre in a box' projector (model EH-DM3) that integrates a DVD player and speakers.

Features & USP. The Epson EH-DM3 home projector features a twin optimised reflection lamp that is 20 per cent more energy efficient than conventional lamps. Its 3LCD technology ensures smooth and bright images without colour breakup, distorted image patterns or visual fatigue. The auto iris technology helps to achieve 3000:1 contrast ratio. The built-in 1.3a HDMI interface is capable of transmitting nearly double the amount of information compared to previous HDMI versions.

The projector automatically senses

Price: Rs 49,900

the ambient light level in a room and selects the most appropriate theatre colour mode to suit your eyes. The new colour processing algorithm reproduces primary colours from the input source to project images with more precision. With the USB display feature, you can do away with the bulky VGA cable.

HD MEDIA PLAYER

SEAGATE'S FreeAgent THEATER+ LETS YOU VIEW AND ENJOY VIDEOS AND PHOTOS ON YOUR HDTV

Seagate has unveiled an HD media player (FreeAgent Theater+) that instantly and easily connects your digital media library to your home entertainment system. All you need to do is load up a Seagate FreeAgent Go hard drive and slide it into the FreeAgent

Theater+ HD media player dock.

Features & USP. With FreeAgent Theater+ player, digital images come to life in 1080p HD video with Dolby Digital or DTS 2.0 + Digital Out surround sound. The interface can be easily navigated with a remote control. Two additional USB ports let you connect other USB storage devices. The Ethernet port allows access to digital media through your home network. The player supports Windows XP, Windows Vista, Windows 7 and Mac OS X operating systems, as well as NTFS, FAT, FAT32 and HFS+ files.
