Free GPS navigation maps for Nokia users

Nokia users can now access localised Indian maps and choose from the application most suited to them. SatNav Technologies has launched a free version of GPS navigation software and maps for Symbian OS phones by Nokia. The free navigation software carries maps of more than 412 cities of India. Nokia phone users can use it for free for up to 10 times and then either reinstall once again to continue using it for free or upgrade with a one-time payment of Rs 2,138 and use it lifelong without recurring charges or reinstallation.

Cartoon Network comics go mobile

Cartoon Network has launched comics of its popular toon stars on mobile phones. Comics of kids' favourite Ben 10, The Powerpuff Girls, Johnny Bravo and Dexter will be now available on mobile handsets through Airtel, Idea, Reliance Mobile and TaTa DoCoMo, amongst others. Cartoon Network has tied up with Nazara Technologies to manage and distribute this service.

Nokia Messaging adds Twitter support

Warm up your Twitter fingers! The latest Nokia Messaging for social networks beta has now added support for Twitter. Nokia users can tweet from the home-screen of their Nokia handset. The Nokia Messaging application enables users to upload pictures and videos, view upcoming events, birthdays and import them to device calendar. It is compatible with the N97, N97 Mini and Nokia 5800.

Watch TV on your laptop

Tata Televisions has launched a new application called Photon TV that allows Tata Photon+ subscribers to watch live television channels on their laptops and desktops. A personal computer- and laptop-based video-streaming application, Photon TV allows Tata Photon+ users to view live TV feed from various sports, news, entertainment and regional channels, and to watch recorded TV shows from the library, movies, music and videos on demand.

on Chip technology, Young India Nano laptop offers exciting multimedia and connectivity features.

Features & USP. Weighing a mere 600 gm, the laptop is ideal for business people on the go, students, office staff and home users. It also features Wi-Fi along with MP3, MP4 and digital photo frame functions. Other specifications include 17.8cm digital panel, flash memory card, SD card, ARM9 266MHZ processor, 64MB RAM and Windows CE 5.0 operating system.

With 2100mAh battery pack in it, the laptop offers a standby time of 6 hours.

TOUCH-ENABLED PRINTER

HP'S PHOTOMART PREMIUM 309G CONNECTS YOU TO THE WEB - WITH OR WITHOUT PC

Price: Rs 13,350

Hewlett Packard (HP) has launched Photosmart Premium 309G all-in-one in India. With easy-to-use features, the touch-enabled printer makes printing effortless for the home consumers.

Features & USP. It allows you to access your photos from online albums at Snapfish and connect to the Web via pre-loaded HP apps - with or without PC. It also lets you print directly from your iPhone.

The printer features an 8.8cm touch-screen for viewing, editing and printing photos, all without a PC. It also comes with wireless support, allowing for more flexible placement, and Bluetooth support for printing straight from Bluetooth-enabled devices such as camera phones.

It also features automatic two-sided printing, to save paper, and uses individual ink tanks and optional XL cartridges. The HP Auto Sense technology ensures that you don't accidentally print on the wrong side of your expensive paper. The printer also lets you personalise CD/DVDs by printing photos, text and graphics directly onto them.

It is Energy Star qualified and consumes less power.
