STMicro reorganises regional structure

STMicroelectronics is making some changes in its global sales and marketing organisation, aimed at better serving its customers and improving the overall effectiveness of its sales and marketing structure. The changes, which will be effective from January 1, 2010, will consolidate ST's regions in Asia to two—Greater China and South Asia, Japan and Korea.

The Greater China and South Asia region will be led by corporate vice president Francois Guibert, who has

guided ST's efforts in the Asia/Pacific region since June 2006. The Japan and Korea region will be led by corporate vice president Marco Cassis, currently the head of ST Japan.

Moving from Greater China to the Americas, corporate vice president Bob Krysiak will spearhead ST's efforts to expand into Central and South America and continue to increase market share in North America. Andrea Cuomo will continue to work as executive vice president and general manager of sales and marketing for ST's EMEA region.

Panasonic buys majority stake in Sanyo

Panasonic has bought 50.19 per cent stake in Sanyo for \$4.6 billion. Sanyo is the world's largest rechargeable battery maker and leading producer of solar panels. The deal comes to an end a year after Panasonic first revealed its interest in Sanyo.

The company bought more than three billion shares from Sanyo's top three investors—Goldman Sachs, Daiwa Securities SMBC and Sumitomo Mitsui Banking—collectively. Panasonic now owns 38.53 per cent of the voting rights of Sanyo and thereby becomes one of Sanyo's major stockholders.

LG India forays into SMB segment

LG Electronics India (LGEIL) has forayed into small and medium businesses (SMB) market. The SMB sector will soon witness the launch of extensive range of office solutions developed by the company. LG plans to invest Rs 2000 million over the next three years in this initiative. The investment would be made for product development and R&D, marketing and opening experience zones for the SMB products.

LG estimates the market for SMB to be about Rs 19,000 million, of which it should be able to capture about 10 per cent by December 2010. With the new SMB solutions, the company aims to provide SMB owners, the one-stop sourcing and customised solutions for the business environment.

Amara Raja Batteries plugs into IBM

Amara Raja Batteries has selected IBM to implement a hardware platform to support its SAP implementation. The company opted for IBM System Power6 570 servers with virtualisation, DS 4700 Storage and Tivoli middleware for its server and storage requirements.

The company has chosen to deploy the SAP environment in a consolidated footprint wherein it will use virtualisation to define server environments for different modules including test and
