

PERFECTLY COMBINED!

Amara Raja Electronics Limited (AREL) is part of US \$400mn Amara Raja Group with business interests in Industrial & Automotive Batteries, Power Electronics, Fasteners, Sheet Metal Products and Food Processing. Immensely successful brands from Amara Raja stable include Amaron, Quanta & Xenon.

AREL is a technologically progressive company with business focus in Electronics Manufacturing Services (EMS), Engineering Design Services (EDS), Custom Magnetic Solutions (CMS) and Consumer Electronics (CE).

The prime focus in EMS is to cater to Industrial, Communications, Automotive, Medical, Defence, Avionics, Telecom and Consumer Electronic segments. Our business model of EMS division is a two pronged strategy, to specialize in high technology, low volume precision manufacturing and to focus on large

economies of scale in manufacturing. Other core areas include raw materials procurement and pooling together resources available within the Amara Raja group: the industrial design expertise as well as create added value services.

AREL EMS Solutions

Our EMS activities include Printed Circuit Board Assemblies, Wire Harnessing, Box Build Enclosures, Plastic Injection Molding, System Integration and Testing. In addition, we provide value added services which include inventory management, branding & documentation services and post-manufacturing services.
