

A RARE BREED.

A wide range of DSOs & MSOs offering a storehouse of features.

Scientific offers a wide range of DSOs and MSOs ranging from 40MHz to 350MHz. Benefit from our experience of over 45 years and select a model best suited to your application.

- 400 MSa/s ~ 4 GSa/s RTS, 50 GSa/s ETS, Memory length 4 k ~ 2 M points
- MSO with 8 Ch / 16 Ch logic inputs, Serial bus trigger and hardware accelerated decode I²C, SPI, UARTz
- Acquisition modes : Refresh, Single, Average, Roll, Waveform Recorder
- Automatic measurements and manual cursor measurements
- Built-in FFT for spectral analysis
- Digital Filters for capturing noisy signals
- Standard USB device & host interface, supports USB mass storage
- Standard software for documentation
- Extensive triggering modes.
- On screen help menu
- Easy distinguishing of channels with Crisp colour display.
