NOISE-CANCELLING HEADPHONE

WITH CREATIVE AURVANA X FI, ENJOY MUSIC WITHOUT UNWANTED NOISE

Price: Rs 19,999

Cyberstar Infocom has introduced Creative's noise-cancelling headphones equipped with X-Fi technology. The Aurvana X-Fi headphones can be used with any MP3 player and even iPhone.

X-Fi Crystallizer technology restores the detail and vibrancy to compressed music and movies. All the highs and lows are intelligently enhanced, ensuring you hear everything in clarity. The noise-cancellation technology significantly reduces background and environment noise by up to 90 per cent. You can even detach the audio cable and continue using the headphones to block out noise while sleeping.

The headphones use top-grade materials and components that reduce the ambient noise by up to 20 dB. Acoustic grills protect the concealed microphone. The premium soft ear cushions and an adjustable padded headband with memory foam provide a good fit, dramatically reducing unwanted noise and creating a private theatre for each ear.

HD MEDIA PLAYER

BRING HIGH-DEFINITION ENTERTAINMENT TO YOUR LIVING ROOM WITH TRANSCEND DMP10

Price: Rs 7000

Transcend Information, Inc., a storage and multimedia products provider, has released its first high-definition (HD) media player, the DMP10. Featuring full support for popular media formats and high-resolution digital video/audio output, the DMP10 offers you a simple way to play your Full HD 1080p digital content on any TV.

The player enables home theatre enthusiasts to enjoy digital movies, music and photos directly on their big-screen TV and home audio system. You simply connect a USB storage device to play digital media content in the comfort of your living room or bedroom, without having to struggle

with clumsy solutions such as burning the files onto DVDs or connecting your computer to the TV.

The player is optimised for HD video and audio quality through its HDMI 1.3 and S/PDIF digital connection interfaces. Fully equipped with DTS and Dolby Digital audio decoding, plus Full HD 1920x1080 H.264/AVC and VC-1 video decoding, it delivers clear sound with superb picture quality and smooth 24p video playback without stuttering.

12MP HD CAMERA

FUJIFILM'S COMPACT FinePix S2500HD COMBINES HIGH PERFORMANCE WITH HIGH DEFINITION

Fujifilm has launched a 12-megapixel digital camera with powerful Fujinon long-zoom lens. Built around 18x Fujinon lens and Fujifilm's proprietary image processing, the FinePix S2500HD delivers high-quality results all the way from wide angle through to telephoto. With unique easy-grip styling and small, lightweight design, it is sturdy enough and can be easily carried around.

The camera has a 28mm wide-angle start to the zoom range and extends it up to an impressive 504mm at telephoto (18x). From sweeping landscapes, interiors and large group shots

Price: Rs 16,999

to distant sports or wildlife action, it is ready for almost every photographic challenge.

The camera captures HD videos and HD stills, enabling you to play them back on any HD-ready television. Additionally, it features an HDMI mini port that can be connected to an HD-ready TV directly via an HDMI cable.
