

Total Solutions for Test & Measurement

Simply Reliable

Our low TCO helps you control costs with reliable products and services.

World-Class Quality, Affordable Price, Wide-Range Selection

Started in 1975, GWInstek designs, manufactures and markets data acquisition and control instruments for both device and production/assembly testing.

GWInstek portfolio includes over 150 products across five key lines - Oscilloscopes, Spectrum Analysers, Signal Sources, Power Supplies, Basic T&M Instruments. Just like our product range, the industries we service are as diverse as they are specialized. Together, our experience and expertise allow us to deliver high-performance test solutions that address the unique requirements of each client. Solutions that are backed by comprehensive after-sales support, warranty and calibration services, with one of the industry's best price vs. performance ratios. Solutions that are " **Made to Measure.** "
