HP bundles motion sensing gaming with Pavilion desktops

With the HP Swing motion sensor gaming console, true gaming experience can now be enjoyed on a PC platform that was earlier available only on separately purchased gaming devices. The console comes bundled with every HP Pavilion desktop PC to deliver real-life action gaming, with games like tennis, bowling, basketball, pool and much more. Visual gaming experience on HP desktops further gets enhanced with CUDA technology and dedicated graphic card.

NEC uses Xilinx FPGAs for 3-D cinema projectors

NEC Display Solutions has adopted the Xilinx Virtex-5 FPGA family for three models of its DLP Cinema projectors. The Virtex-5 FPGA family reduces the design cost of peripheral devices by providing interfaces for all required standards (HD-SDI, 3G-SDI) plus SerDes (serialiser-deserialiser) in a single chip. Thus it helps reduce overall system costs while enabling advanced performance, including communication via a high-speed Ethernet interface.

Videocon GSM launches O.facebook.com

Videocon GSM Mobile Services is offering its customers free mobile browsing on the new O.facebook.com site. By sponsoring O.facebook.com, Videocon Mobile Services is enabling its customers to stay connected through Facebook with their friends and family from any mobile Web browser without incurring any data charges. O.facebook.com site is a new faster, lightweight version of Facebook's mobile site m.facebook.com. The site does not have graphics or photos.

Social gaming on your Aircel mobile phone

Aircel, a pan-India telecom operator, and ibibo.com, a social gaming and networking website, have introduced social gaming to mobile customers in India. The 'Great Indian Parking Wars' offered on the Aircel Pocket Internet will further expand to a catalogue of games. To access these games, users just need to visit Aircel Pocket Internet on their WAP-enabled handsets. They can log on to these games via their Facebook ID or ibibo.com ID.

NETBOOK WITH FREE NET CONNECTION

WITH DataWind's UbiSurfer, YOU PAY FOR THE DEVICE, NOT THE USAGE

DataWind's UbiSurfer (short for 'Ubiquitous Surfing') ultra-portable netbook eliminates the complexity of getting online. With it, you pay for the device, not the usage. For the average user, there are no monthly fees, airtime tariffs, contracts or recurring fees.

The UbiSurfer comes bundled with

30 hours per month of free Internet access for the first full year useable across India. For heavy users, unlimited Internet is available for only Rs 99 per month and each subsequent year of usage costs only Rs 999. This service is powered by Tata Teleservices' CDMA network across India.

The UbiSurfer is not only armed with Wi-Fi and LAN connectivity but also has an in-built cellular modem and an embedded SIM card that allows access to the Internet anywhere a mobile phone signal is available all over India. Users are not limited to Wi-Fi hotspots and there is no need to buy a costly USB dongle to ensure connection.

The UbiSurfer comes preloaded with the Microsoft Windows CE 6.0 operating system and Softmaker Office Suite. With Microsoft Windows CE, it boots up in ten seconds, and applications launch instantly.

Price: Rs 7999 (with a year of free mobile Internet)

8GB MP3 PLAYER

ZEN X-Fi MP3 PLAYER FROM CREATIVE RESTORES THE LOST DETAILS TO ENHANCE AUDIO CLARITY

Cyberstar Infocom has introduced the

Zen X-Fi MP3 player from

Creative that has a storage capacity of 8 GB and a 6.4cm (2.5-inch) TFT LCD touchscreen. The player features Xtreme Fidelity (X-Fi) audio technology with built-in speaker and FM radio. It also has a microSD card slot for additional storage.

With X-Fi Crystalizer, you experience your digital music the way it was meant to be, with all lost details restored. X-Fi Expand gives you the most natural sound staging available in headphone audio. It also offers access

Price: Rs 13,599

to all your music, photos and videos in various formats without the hassle of reversion.

The player lets you stream and access your entire PC media library anywhere throughout your home. It also grants access rights to any of your friends who own a ZEN X-Fi and you'll be able to let them access your music anywhere in your home as well. You can also wirelessly download and refresh your own player's digital content on the fly.
