.....a total solution for Educational Labs

ST-PCB-15
PCB making Machine

Specifications

- Travels: X-200mm x Y-150mm x Z-60mm
- Table size: 250mm x 310mm
- Maximum Thickness of Material: 60mm
- Leadscrews: M10 x Pitch=1.5mm
- Nuts: Anti-Backlash Nuts on all axis
- Material: Constructed of aluminum alloy (ANODIZING)

- Bio-Medical Lab
- Communication Lab
- Control And Instrumentation Lab
- Data Acquisition Lab
- Electrical Lab
- Electronics lab
- Embedded Development Lab
- Fiber Optic Lab
- Mechatronics Lab
- Microprocessor Microcontroller Lab
- Microwave Lab
- Nano Technology Lab
- Power Electronics Lab
- Robotics & CIM Lab
- Technology Lab
- Thermoelectronics Lab
- VLSI/DSP Lab

And All Test and Measurement Instruments

RF Power Meter MW 305

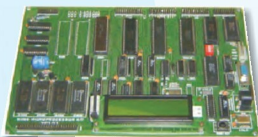

Specifications

- Frequency Range: 0.01 ~ 12.4GHz
- Power Sensor: Diode sensor
- Display: 8 Character x 1 Line LCD
- Max. Safe Input Power: 200mW
- Peak Power Rating: 1W 1s
- Input Impedance : 50Ω
- Input VSWR (max) : 1.4 : 1
- Input Connector : Type N Male

Embedded & VLSI Lab

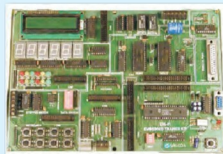

8051 Microprocessor trainer

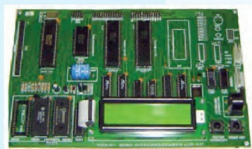

8086 Microprocessor

Micro 85

E-89 Series Embedded Trainer

8085 Microprocessor

Nano 51

Manufacturer and Exporter of Quality Electronics Equipments

Dealer enquiry solicited in unrepresented Area

SALICON NANO TECHNOLOGY PVT. LTD.
