SLEEK-'N'-STYLISH BLACKBERRY BOLD

**RIM'S NEW 3G SMARTPHONE
DELIVERS HIGH-END FEATURES AND
PERFORMANCE IN A COMPACT AND
HIGHLY REFINED DESIGN**

Research In Motion (RIM) has launched the BlackBerry Bold 9700 smartphone that offers a wide range of high-end communication and multimedia features in a sleek and stylish design for both professional and personal use. The full-QWERTY keyboard on the phone allows comfortable and accurate typing and the touch-sensitive trackpad helps users navigate effortlessly. It supports 3G HSDPA networks around the world and is equipped with a next-generation, high-performance (624MHz) processor and 256MB on-board Flash memory.

The smartphone also features a high-resolution display and a 3.2MP camera with support for video recording. Built-in Wi-Fi (802.11 b/g) allows for faster Web browsing and extended data coverage. Wi-Fi calling via UMA is also supported.

The BlackBerry Bold 9700 is available at stores serviced by Redington India, Airtel, Aircel, BSNL, Idea Cellular, Loop Mobile, MTNL, Reliance, Tata and Vodafone.

Price: Rs 31,990

PERSONAL LIVE TV ON THE MOVE

WITH DISHTV'S NEW SERVICE, PEOPLE ON EVERY SEAT IN A CAR CAN HAVE THEIR OWN TV

Dishtv has launched a revolutionary service called Personal Live TV on the move that brings 70 satellite TV channels at each seat of the vehicle. The channels are viewable independent of each other and have a personal audio.

The new system, Dish Mobile, is

surprisingly similar to the standard Dishtv setup for homes and provides the same television channels. The only notable difference is an antenna which is specially designed to work in moving vehicles. It is akin to Dish TV technology on the Kingfisher airlines where

Price: For a four-seat system in a SUV: Rs 245,000 plus annual subscription fee of Rs 10,000

each seat has about eight live channels from Dishtv. The company plans to soon provide this personalised service in intercity buses, taxis and trains.

The product is presently available in Mumbai, Delhi, Chennai, Hyderabad and Bengaluru.

COMPACT DIGITAL CAMERAS

FUJIFILM'S FINEPIX J27 AND J30 ARE ONLY 20MM THICK

FUJIFILM India has added two new cameras to its J series—the FinePix J27 and J30. In a first for J series models, the FinePix J27 and J30 feature

a panorama mode, which works by seamlessly stitching together three consecutive shots to produce one impressive panoramic picture. The cameras detect a scene and automatically adjust the exposure, focus and white balance to take perfect shots, regardless of the conditions or subject. These even find all the faces in a frame and automatically adjust the focus and exposure for flawless portraits.

The cameras are available from authorised distributors of the company.

**Price:
J27: Rs 7999
J30: Rs 8499**
