- USB: Beautiful design, immersive game play, Web, email, maps and more

continuous audio playback.

Features

Size and weight. Media players are supposed to be small, have a good fit into your palm and weigh less so that these could be easily carried in your pocket.

Storage. Like MP3 players, portable media players store data in flash memory or hard disk. The storage capacities have reached up to 64 GB for flash memory based players and up to 500 GB for HDD-based players. A 4GB capacity allows you to store up to 1000 songs. Flash (solidstate) memory is usually considered better than hard disk. Flash memory based players are lightweight compared to HDD-based ones. You can also wear them while jogging without affecting their performance.

Some players also accept memory cards for extra storage and data transfer from external devices. For instance,

BINAY – Lighting Up The Future

BINAY LED

Aviation Obstruction Lights for:

- Industrial Chimneys
- Radio, TV and Structural Towers
- High-rise Buildings & Structures
- Airports and Airfields

Available In Low Intensity and Medium Intensity Versions (as per the International Civil Aviation Organization guidelines), BINAY's PATENTED LED Aviation Lights come with a 5-year Warranty.

BENEFITS

- Rt-and-forget maintenance-free operation
- Long life of 100,000 hours (20 years at 12 hours daily burning)
- Shock-proof and vibration-resistant

THE BINAY LED OBSTRUCTION LIGHT IS UNDER ACCEPTED PATENT, AND AS SUCH IS A PROPRIETARY PRODUCT
