**Coming soon*

adopted teaching methodology having balance between academic rigors and on hand exposure of different segment of industry with summer training, case studies and projects besides classroom teaching. All activities are well supported and under the guidance of by learned faculties from premier institutes like Director, Dr P.K.Dey (IITians), Prof. A.K.Nigam(IITians), Dr Tathagat Ray (University of OHIO and Newyork) and Dr G.N.Sahay (NIT Patna), Prof. Arnab Bandopadhyaya (IITians), besides Mr Tarun Banga, high profile specialist in IT having more than 20 years of experience through GLOBAL corporate like ADOBE, MICROSFT etc.

SCET believes in proactive approach, learning through innovation, to develop creativity and encourage students to identify products and work on LIVE PROBLEMS. Students get on hand experience and vital inputs from regular visits of experts coming from well reputed industries.

SCET believes in enhancing inherited potential of students by enriching the curriculum with emphasis on human values, teaching methodology aims to shape our students into mature, goal driven professionals, with creativity & versatility.

Vision

- To develop the Institute into a national institute of excellence consistent with global practices in the field of Engineering, Technology and Management education
- To help the new generation of talented students to recognize their potential through experiential learning, and provide them with opportunities to think strategically and creatively.

Why SCET?

It visualizes need of industry, develop innovative product and having in-house research centre, constant tuning with industries and proactive approach. SCET believes that student should be self dependent starting paying his fees etc. and be ready for industry at large before completion of course. The process has already started in 2nd year itself.

Learning is life long process and SCET objective is to generate lifelong learners pioneering innovate pathways to get success in real life can say "A perfect blend of skill & knowledge."

What Students have to say?

"I feel safe in the hands of SCET's faculties & see to achieve my life's goal."

— Paras Jain, 2nd Year CSE

"I am glad that I've taken admission in SCET. The teaching is very Innovative with supportive staff."

— Anand Gopal 2nd year IT

"SCET is having experienced faculties backed by continuously upgraded labs & COE. I am confident to achieve my goal."

— Pallavi Jain, 1st year, CSE
