

G. L. Bajaj

A Perfect Destination for Quality Education

G.L. Bajaj Institute of Technology and Management (GLBITM) is one of the institutes under the aegis of R.K. Group of Institutions, a well-known educational group running six institutions since 1996 in Mathura and Greater Noida, which are on their glorious path of imparting quality education to thousands of students and budding professionals in the fields of Engineering & Technology, Management, Dentistry, Pharmacy, Education & Basic Sciences. GLBITM imparts practical training for Graduate Degree in Engineering, Masters in Management and Computer Science and Post Graduate Diploma in Management. The sprawling and fully-integrated campus is strategically placed in the heart of Knowledge Park-III, Greater Noida, India's one of the biggest hubs of premier educational institutes. The Institute's accomplishments can be gauged from the fact that it ranked GL Bajaj truly stands out of the crowd in training aspirants for these world-class lucrative career options.

What separates GLBITM from the Rest?

A perfect blend of academia and modern technology, GLBITM strives to train and develop most promising professionals in the atmosphere that is most congenial for their growth and development. Our students are exceptionally talented matching international standards. Institute aims to create total quality technocrats and managers to face the global challenges. G. L. Bajaj Educational Heritage in University in the first year of its inception, became the choice of top-rank holders. Equipped with ultra-modern facilities, experienced faculty and excellent grooming of students, it is ranked among the best self-financed institutes in the region. Indeed GLBITM is driven by the **Passion for Innovation**. Institute translates knowledge and technologies in the form of better Engineers and Managers. We have a combination of diverse talents and experience that is fully committed to the profession and has high standards of ethics and morals. Each self-driven department - Computer Science & Engg., Electronics & Communication Engg., Mechanical Engg., Information Technology, Applied Science & Humanities, Electrical & Electronics Engg., Master of Business Administration (MBA), Master of Computer Application (MCA) and PGDM has an independent infrastructure. The core faculty has several publications on national and international platform. Faculty Development Programs (FDP) are conducted to keep our faculty abreast of their discipline. We have been associated with CII & WIPRO for the FDP activities and invite eminent professionals from industry and corporate business leaders as visiting faculty to interact regularly with our students and faculty.

Research & Development Cell: This cell is established with the aim of providing the best opportunities in the specialized

technical education, research and development. The cell keeps track of the latest developments in the field of technology and management. It not only encourages students to try their hands in research but also provides training by involving them in project oriented R&D and also helps them to think out-of-the box and inculcate in them the quest for innovation. R&D Cell has embarked on promoting National and International conferences, seminars and symposia, which has culminated into the major interface with industry, playing a comprehensive role in the overall grooming of our students.

Training & Placement (TPC): T&P Cell acts as an interface between academia and industry and constantly works to provide the best career prospects. The cell maintains good rapport with large number of top-notch organizations and companies and invites managers, HR personnel, and other eminent personalities from the industry to interact directly with our students.

With the efforts of TPC, GLBITians have found great careers in L&T Infotech, Infosys, Accenture, Fiat, Godrej, Lupin Pharma,

In a scenario where new institutes are mushrooming in every nook and corner of NCR, it is no mean feat that GLBITM has made a benchmark in the field of technical education. Our expertise coupled with rock-solid principles, excellent infrastructure, competent faculty members, robust teaching methodology and industrial relations place us well above the rest. We don't compromise in providing our students world-class facilities, be it state-of-the-art labs, Wi-Fi campus, conference halls or comfortable hostels, multi-cuisine cafeteria, and round-the-clock security for a congenial and comfortable atmosphere to the students.
