

Recruiters' Choice 2009-10: Electronics Engineering Colleges Par Excellence

EFY research bureau presents to you the list of top electronics engineering colleges voted for the year 2009-10

■ SUDESHNA DAS

Although you pick up *Electronics For You* to know the latest trends in the electronics industry about technology, business or recruitment, there is an equally important source of information that can help the future electronics professionals make important academic decisions: the opinion of recruiters about the engineering colleges in India.

EFY recognises how much valuable is recruiters' opinion for the budding engineers. Stands to reason, the true value of an electronics engineering course can be judged best by the feedback of the industry. Since last year, we at EFY have been highlighting those institutes which are held in high esteem by the industry. These institutes are simmering with quality education,

Methodology

The target respondents of this survey were the top executives from the Indian industry who play a vital role in their organisation in dealing with fresh talent coming from academia. They shared their opinion about the electronics engineering colleges of their choices.

The answers were sorted on the basis of the geographical location of the institutes. The institutes were divided into four zones: east, west, north and south. Thereafter, the top ten preferred institutes (five government and five private) were selected from each zone.

Sample size. EFY research bureau began its research targeting 150 respondents. Of the 150 executives contacted, as many as 89 participated.

Selection parameter. Potential to build talent as per the industry need

Companies which participated in this survey

A.V. Systems, Accurex solution, Agilent Technologies, Ahuja Radios, AIMIL, Alpha Design Technologies, Alstom, American Tec, Amphenol, Aplab, Amptek, APW-President, Arcelomittal, Arrow Electronics, ASUS, AVL India, Axis Aerospace & Technology, Barco Electronic Systems, BEL, Cisco, Bose Research, Cadence, Capgemini, Casio India Co., CDIL, Coca Cola, Conzerv, Cookson India, CSIL, Deepakshi, DVS Electronics India, Electronics Corporation of India Limited (ECIL), elfinichips, Elcompo Group, Elcomponics, EMC, Epcos, Ericsson, Freescale Semiconductor, Graftec, HCL Infosystems, HCL Technologies, Hical, Hi-Rel Electronics, HITA Technology, Honda, Honeywell, HP, Huawei, Juki, KPIT Cummins, L&T, Maxim SMT, Mechatronics, Modern Power, Napino, Neural Systems, National Instruments, Nimtronics, NXP Semiconductors, OEN, Omniscent, Panasonic, Parker Power, PCI Ltd, PCS Technology, Quad, Pepsi, Qmax, Rockwell Automation, Sankalp Semiconductor, Sahasra Electronics, Shilchar Technology, SLN Technologies, SM Electronic Technologies, Sofcon Systems, Tata Power, TCL, TCS, Tulip, Tektronics, TELEMATX, Texas Instruments, TNS, Tandon, Tyco Electronics, Wipro, Xilinx, Yogasa Systems

up-to-date course curriculum, state-of-the-art infrastructure and a really good industry interface.

Just like the last year's feedback, a zonal bias still prevailed among the companies due to quick availability of the talent. A major chunk of the respondents preferred to confine the talent hunt within the nearby geographical area to reduce the logistic cost. So we

ranked the institutes on a zonal basis rather than all-India basis. We hope this endeavour will help would-be electronics professionals once again. At the same time, we congratulate the winners. And well, for us at EFY research bureau, this is a humble journey to learn.
